Dear Friends,

This Annual Report presents Fenway Community Health's financial position and reviews our achievements in serving our community. **We are pleased to report that 2006 was a very successful year.**

With ongoing reductions in state and government funding, and a striking rise in the need for our services, 2006 was a year filled with challenges. At a time when some community healthcare organizations were forced to scale back, Fenway treated more patients, initiated new programs, increased research capabilities, heightened advocacy efforts, improved operational efficiencies, better served our community, and reached out to more underserved people than ever before.

Our financial future is strong. We continue to operate responsibly and efficiently. This strength will enable us to build on our successes, anticipate the needs of our community, and better reach underserved groups, no matter how great the obstacles, nor how significant the challenges.

Shortly after we closed the books on the past fiscal year, we made the much anticipated public announcement of **10 Stories, our capital campaign to help fund our new home in the West Fens neighborhood of Boston.** This was quickly followed by a ground-breaking ceremony at 1330 Boylston Street, marking the beginning of the realization of a dream that's been years in the making. There will be much more to share in the coming months.

Our success and growth in the past years have been inspiring. It comes from the unified efforts of our benefactors, staff, research partners and volunteers who have been motivated by the need to serve our patients and our community. With each success, we will confront greater challenges. These obstacles will present new opportunities and a stronger desire to succeed while staying true to our mission of making high-quality healthcare accessible to all people, regardless of income, sexual orientation, race, age, or gender.

We look forward to the year ahead with great anticipation and excitement. Thank you for your continued support.

Sincerely,

Jo Ayoub
Chair, Board of Directors

Stephen L. Boswell, M.D.
President & Chief Executive Officer

BREAKING NEW GROUND

In a year of diverse accomplishments, we broke new ground in each of our core concentrations:

- Medical and mental health services
- Research
- Community outreach
- Advocacy

In these areas, we enhanced our services, expanded our reach, and extended our impact far beyond Boston.

Securing Our Foundation

Every time we break new ground, we have a timely opportunity to reexamine our base, focus on our essential services, and fortify our core.

- In the following pages, you'll discover what we've achieved in our 36th year and see how people can, and should take care of each other.
- You'll learn that thanks to the dedication of our patients, staff members, and supporters, 2006 was a remarkable year for our community.

FENWAY'S SERVICES:

- Primary Care*
- Women's Health*
- HIV-Related Services*
- Mental Health and Addiction Services*
- Specialty Care*
- Complementary Therapies*
- Violence Prevention and Recovery*
- Family and Parenting Services*
- Health Promotion*
- Transgender Health*
- Pharmacy*

In 2006, we proved that there are many ways to BREAK NEW GROUND.

We expanded our services and reached more people in our community. This includes LGBT (lesbian, gay, bisexual, and transgender) people, those living with HIV/AIDS, those from communities of color, and those who live and work in the Fenway.

- We continued to be the **largest provider of AIDS/HIV medical and mental health care** in New England with 1,300 patients. At a time when state funding for health and human services and federal support for “safety net” programs were severely reduced, we intensified our efforts.
- Our **VIP Crew Volunteer Outreach program** connected with 20,000 people, held 1,500 in-depth safer sex counseling sessions, and distributed 23,000 condoms and 11,000 educational pamphlets to individuals at risk for HIV and other sexually transmitted infections.

- Our **HIV Counseling, Testing and Referral Services program** administered antibody tests to 2,000 clients, including men who have sex with men, injection-drug users who are heterosexual, and people with occupational exposure to HIV. More than 90% of confirmed HIV cases were triaged into other Fenway services.

- We hosted our inaugural **Board of Visitors (BOV) meeting** for influential members of the community whose expertise and experience greatly supports our work.
- We were selected by The Centers for Disease Control and Prevention (CDC) to lead the National Network for **LGBT Tobacco Control and Prevention**.
- In collaboration with the Massachusetts Department of Public Health, the Fenway Institute trained 400 substance abuse, mental health, child welfare, public safety, and medical personnel on the production, use, and treatment of **crystal methamphetamine**.
- We increased the number of people who benefit from our **mental health services**. The average monthly patient visits in the Mental Health Department rose to 1,450 for individual therapy, 175 for group therapy, and 240 for psychopharmacology.
- **GetTestedBoston.org**, launched by The Fenway Institute and funded through the Massachusetts Department of Public Health, educated gay and bisexual men on STIs (sexually transmitted infections) and promoted regular screenings.

- **Dr. Harvey Makadon**, Director of Education and Training at The Fenway Institute, published a widely discussed article in the New England Journal of Medicine, calling for greater training and awareness of LGBT health issues among American medical providers.

“There is little formal education about sexual minority groups included in medical training. As a result, otherwise knowledgeable providers are often uninformed about basic issues that are essential to providing high-quality care to this population...Such educational gaps persist despite the numerous reports indicating a need for greater attention to the health of the lesbian and gay communities.”

– Dr. Makadon, New England Journal of Medicine

- Approximately 400 new patients benefited from our free **Acupuncture Detox and Maintenance (ADAM) program**. Most struggled with multiple substances, including crystal methamphetamine, cocaine, and alcohol addiction. Many ADAM patients were referred to other Fenway services and no one was turned away because of an inability to pay for treatment.
- Our **LGBT Helpline and Peer Listening Line** logged more than 5,000 anonymous calls from mostly young, troubled, and often desperate people throughout the nation. They received empathy, understanding, and guidance from us.
- Our **Alternative Insemination (AI) Program** for lesbians and others who are denied access to parenting services reached a milestone: the number of conceptions we have assisted with passed the 350 mark. The first babies born in our program are now finishing college, embarking on careers, and starting families of their own.

- Our **Transgender Health Program** continued to fully address the needs of more than 200 transgender people who regularly access our services. In 2006, the program was awarded a grant from Blue Cross/Blue Shield to train providers and staff in all areas on how best to care for transgender patients and clients.

- We increased the reach of our **pharmacy**, including the number of senior citizens and housebound patients who received free delivery.
- Our **Violence Recovery Program** provided more counseling, support groups, advocacy, and referral services to victims of bias crimes, domestic violence, sexual assault, and police misconduct. Technical assistance and training was also provided to the Boston Police Department, the District Attorney’s office, hospitals, health centers, social service agencies, community groups, and schools around the state.

Breaking new ground AND REACHING NEW HEIGHTS.

In 2006, we again held the largest LGBT fundraising events in New England: the annual **Women's Dinner Party** and the **Men's Event**, which serve as models for groups around the nation. They continue to demonstrate the inspired results of blending community commitment, corporate sponsorship, and a night of great company.

The **Women's Dinner Party** brought in more than **\$350,000** to support vital Women's Health programs and services that address the whole woman.

- This includes primary care, gynecology, alternative insemination, lesbian cancer support, substance abuse treatment, and mental health programs.

The **Men's Event** raised almost **\$500,000** that is directed to essential care and research.

- This runs the gamut from advocating fair and progressive health care policy at the local, state, and federal levels to conducting crucial LGBT and HIV-health research at The Fenway Institute.

Fenway Community Health and the LGBT community both lost a champion and a friend when Congressman Gerry E. Studds passed away last year. The Congressman Gerry E. Studds Visibility Award has been given in his honor at the Men's Event each year since 1994.

Fenway's **Men's Event and Women's Dinner Party** are New England's premier gay and lesbian fundraisers; combined, they are among the largest LGBT events in the country. The proceeds raised by Fenway's events constitute a critical source of funding for our unique and culturally competent programs.

Fenway Community Health's

history is defined by providing quality health care for all who need it—particularly for those who have been disenfranchised by their sexual orientation, gender, race, age, or income. It is also marked by dedicated individuals whose unwavering trust and support have made our mission possible. Gifts from individuals—given to our annual fund or through special events—are vital to Fenway, helping us meet our most pressing needs and most exciting opportunities.

Tribute and memorial gifts provide a unique way for people to acknowledge loved ones and others who had an impact on their lives. While honoring individuals who believe strongly in our mission, or memorializing those who have passed away, these gifts help Fenway promote access to quality care for all those who need it.

Celebrated through gifts in their honor or their memory, the exceptional people listed below have made a lasting impact on the lives they have touched.

Gifts have been made in memory of:

Gary Airel
 Robert Anderson
 Peter Ansin
 Daryl Aylward
 Tom Bennett
 James Beveridge
 Robert Boardingham
 Rose Brenner
 Daniel L. Cirelli
 Greg Dorain
 John J. Ellis
 Gregory Evans
 Thomas M. Ferris, Jr.

Gifts have been made in honor of:

Acupuncture Detox Program
 Barry Alterwitz
 Joanne T. Ayoub
 Genelle Bishop
 Stephen L. Boswell, M.D.
 & John A. Neale

Special fundraising events provide additional ways for those who want to make a difference to support Fenway Community Health. Thank you to all those who have contributed further funding to Fenway's mission.

Third Party Special Fundraising Events

Axelle Fine Arts Galerie Newbury	Harbor to the Bay, Inc.
David Cottrell's Faith Team 2006	Machine/RamRod
Genelle Bishop's 70th Birthday	Tennis 4 All, Inc.

Gift planning brings philanthropic wishes together with sound financial planning. By making a bequest to Fenway through a will or trust, naming Fenway as a beneficiary of a life insurance policy or retirement plan, or creating a life income plan to support Fenway, these donors are creating a legacy that benefits the people they most care for and those who depend on Fenway.

Fenway Community Health's Legacy Society

Fourth Annual HARBOR TO THE BAY RIDE

150 bikers left Club Café in Boston at 6:30 a.m. on Saturday, September 16, 2006 to raise money for HIV/AIDS programs and services as part of the fourth annual Harbor to the Bay Ride. Some rode 65 miles to the Bourne Bridge and others rode the entire 128 miles to Provincetown, and together they raised more than \$238,000, every penny of which went to Fenway Community Health, AIDS Support Group of Cape Cod and Community Research Initiative of New England.

Thanks to the efforts of riders, crew and the Harbor to the Bay volunteer committee, Fenway received \$156,300 in vital funds to help us ensure that every person living with HIV/AIDS who comes through our doors has access to care, medicine and support.

Founded by the late Michael A. Tye, Harbor to the Bay is a one day bike ride from Boston to Provincetown that raises money to support programs that care for people living with HIV and AIDS. Harbor to the Bay's mission is to give 100% of money raised by riders and crew to its beneficiaries! No politics, no elaborate production—just a dedicated group of individuals who want to ride and make a difference in the community. Harbor to the Bay is a grass roots initiative, run solely by volunteers!

Visit www.harbortothebay.org for more information.

Fenway would like to extend special thanks to:

Independent Auditors Report

To the Board of Directors of
Fenway Community Health Center, Inc.

We have audited the accompanying statements of financial position of Fenway Community Health Center, Inc. (a Massachusetts corporation, not for profit) as of June 30, 2006 and 2005 and the related statements of activities and changes in net assets, cash flows and functional expenses for the years then ended. These financial statements are the responsibility of the Center's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Fenway Community Health Center, Inc. as of June 30, 2006 and 2005, and the changes in its net assets and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Alexander, Aronson, Finning & Co., P.C.
Wellesley, Massachusetts

September 29, 2006

Fenway Community Health Center, Inc.

2006 was a year to break new ground on **MANY FRONTS.**

Over the past ten years, the number of clients we serve has doubled to 12,000 and the number of patient visits to 60,000. Clearly, it's time to respond to today's demands and prepare for tomorrow's needs. With five times the space of our current facility, the new Fenway Community Health will:

- Increase the number of patients in all our practices.
- Enhance our capacity to train health professionals to care for underserved populations.
- Expand our women's health practice through additional providers and services.
- Enlarge our LGBT health curriculum.
- Broaden our residency program for health care providers.
- Strengthen our collaboration with our partner institutions, such as Beth Israel Deaconess Medical Center.

Ultimately, our new home will have ten stories and 100,000 square feet to better serve our community. We will also have a powerful legacy to bestow on future generations.

As we look back at 2006, we thank you for your steadfast support and for helping us secure our foundation. As we look ahead, we are proud to have you join us as we continue to break new ground.

The number of clients we serve has doubled to 12,000 and the number of patient visits to 60,000.

This is our **VISION FOR THE FUTURE.**

It is time to:

- Secure the strength of our foundation: medical and mental health services, community outreach, research, and advocacy.
- Plan strategically and forcefully for our community's future by expanding our physical footprint.

We're ready to break new ground.

We're proud to present our new ten-story health facility and community resource, to be built in the West Fens near the Longwood Medical Area. Upon completion, it will be the largest LGBT-oriented health-care center in the world, with the unique goal of providing compassionate care and treatment, cutting-edge research, and comprehensive training.

10 STORIES

The Campaign for Fenway

Fenway Community Health has launched 10 Stories: The Campaign for Fenway, a multi-year, \$16 million capital campaign to help finance this groundbreaking new facility, which will allow us to bring most of our staff together under one roof with the goal of revolutionizing community health care, health care for the LGBT community, and for people living with HIV/AIDS. To learn more about 10 Stories and Fenway's new home, visit www.tenstories.org or contact John Marksbury, Fenway's Capital Campaign Director, at 617-927-6361.

Our new home will have ten stories and 100,000 square feet to better serve our community.

Upon completion, it will will be the largest LGBT-oriented health-care center in the world.
