Building Our Future
A YEAR OF EXTENDING OUR REACH
Dear Friends,

During the past year, Fenway Community Health and The Fenway Institute reached significant milestones as we continued to extend our reach on behalf of those who need us most. This annual report documents those milestones and provides an overview of our accomplishments in medical and mental health care, research, education, outreach and advocacy.

Last fall saw us break ground on Fenway’s new home, a 10 story tower representing the future of LGBT (lesbian, gay, bisexual, and transgender) health care and research. Rising from the ground at 1330 Boylston Street in Boston’s West Fens neighborhood, this building will be the largest ever constructed by an organization with “LGBT” in its mission statement.

With the spring came our signature fundraisers—the Men’s Event and Women’s Dinner Party. This year saw both events break records to raise more than $860,000 to ensure that every person who comes through Fenway’s doors receives the care they need.

This past summer was an especially exciting time at The Fenway Institute, our national LGBT health research, education and advocacy think tank. As a team of Institute medical experts put the finishing touches on The Fenway Guide to LGBT Health, the nation’s first medical textbook focusing on LGBT people, news came that we had been awarded a federal population center grant. This grant from the National Institutes of Health represents the first time a community-based organization has been selected for this type of award and indicates recognition by the federal government that LGBT people are a population with unique health needs warranting in-depth study.

Looking ahead, our expectations are elevated. As we expand our physical footprint and increase our services in the community, we know our challenges will increase. We are confident that we will effectively respond to even the most daunting obstacles. Our providers, researchers, educators and leaders represent some of the finest talents in their fields and have the skill and insight needed to chart Fenway’s course into the future.

It is an honor to share our 2007 milestones and achievements with you and we thank you for your continued support.

Sincerely,

Joanne T. Ayoub         Stephen L. Boswell, M.D.
Chair, Board of Directors                       President & Chief Executive Officer

A year of reaching new heights for our community.

In last year’s Annual Report, we shared with you the thrill of breaking ground for our new home at 1330 Boylston Street in the Fenway and realizing a dream that had been decades in the making. This year, with the completion of our new building’s framework, our dream rises. Each day our construction camera at www.fenwayhealth.org documents our progress towards completion of the largest LGBT-focused health facility in the nation.

A year of extending our reach within our community.

At the same time that our new facility commanded the attention of the media and our community, we also built on our core concentrations: medical and mental health services, LGBT and HIV health research, community outreach, and health policy advocacy. On a daily basis, we fortified our fundamental commitment to provide a health care safety net for our community and advance cutting-edge research and training programs.

In the following pages, you will discover the ways we successfully reached up and effectively reached out to our community. This was all made possible because of our dedicated supporters, staff and patients. For that, we say thank you.
In 2007, the operative word was “build.”

This meant expanding our physical footprint in our community and, at the same time, expanding our services to traditionally underserved lesbian, gay, bisexual, and transgender (LGBT) people, women, those living with HIV/AIDS, and people from communities of color. Here is a sampling of what we accomplished for our community and how in building for the future, we made history.

**New ways that we expanded our community building efforts:**

- **The National Institutes of Health Awarded The Fenway Institute a five-year, $1 million Population Research Development Grant to produce landmark research and train the next generation of LGBT scholars.**

  We are the first community-based organization to be awarded such a grant by the federal government and the first federally-funded research center to focus specifically on sexual and gender minority population research.

- **The Fenway Institute worked with the American College of Physicians to complete The Fenway Guide to LGBT Health.**

  Published in October 2007, the textbook is the first of its kind in American medical publishing, teaching medical providers about the unique health care needs of sexual and gender minorities.

- **Fenway’s Transgender Health Program was awarded a grant from Blue Cross/Blue Shield to train providers and staff on how best to care for transgender patients and clients.**

  Our program, established to comprehensively address the needs of more than 300 transgender people who regularly access our services, serves as a national model.

- **The Fenway Institute’s Navigation Project reached those at the highest risk for health disparities and connected them to life-saving services.**

  During its first year, over 1,500 one-on-one counseling sessions were held, including meeting clients in their homes and on the streets. Ask Doctor Cox, the online resource, responded to more than 600 medical and mental health questions.

  In addition, Fenway’s VIP Crew volunteer safer sex outreach team reached 15,000 people, held 2,900 in-depth counseling sessions, and distributed 38,500 condoms and 19,500 learning resources to individuals at risk for HIV and other sexually transmitted infections.

- **We served more community members:**

  Our providers cared for 13,000 patients who made 60,000 annual visits. On average each month, our Mental Health Department held 1,540 patient visits for individual therapy, 135 for group therapy, and 270 for psychopharmacology visits.

- **Fenway’s Transgender Health Program was awarded a grant from Blue Cross/Blue Shield to train providers and staff on how best to care for transgender patients and clients.**

  Our program, established to comprehensively address the needs of more than 300 transgender people who regularly access our services, serves as a national model.

- **Our pharmacy filled more prescriptions, an average of 200 per day, and participated in several programs to respond to the needs of all Fenway residents, including a delivery service for homebound patients.**

  Our Acupuncture detox and Maintenance program helped more than 300 new patients, most with multiple substance challenges including crystal methamphetamine, cocaine, and alcohol.

- **Our LGBT Helpline and Peer Listening Line for LGBT young people, both operating nationwide, answered more than 4,000 calls.**

  As of FY 2007, the Alternative Insemination Program at Fenway, believed to be the only one of its kind in the United States, has assisted with the conception of more than 350 babies.

- **Our LGBT Helpline and Peer Listening Line for LGBT young people, both operating nationwide, answered more than 4,000 calls.**

  Our Acupuncture Detox and Maintenance program helped more than 300 new patients, most with multiple substance challenges including crystal methamphetamine, cocaine, and alcohol.

  Along with offering care and counseling for victims of hate crimes and domestic violence, our Violence Recovery Program expanded training and technical assistance to the Boston Police Department, District Attorney’s offices, hospitals, health centers, social service agencies, and community groups.
In 2007, two pillars continued to secure our foundation.

We once again organized the largest LGBT fundraising events in New England, and among the most successful LGBT occasions in the nation: the annual Women’s Dinner Party and the Men’s Event.

**The Women’s Dinner Party**

In support of essential and holistic women’s health programs and services, the Women’s Dinner Party brought in more than $360,000. The proceeds helped ensure our commitment to primary care, gynecology, alternative insemination, lesbian cancer support, substance abuse treatment, and mental health programs.

**The Men’s Event**

From providing fundamental care to those with the greatest need in our community to far-reaching advocacy in our country, the Men’s Event raised more than $500,000. This served as a critical source of support and demonstrated Fenway’s importance to thousands of people.

Together these two events help Fenway ensure every person who walks through our doors receives high-quality, culturally competent care, regardless of their ability to pay, and fund programs that impact our community’s health locally and nationally.

---

**Fenway’s Men’s Event and Women’s Dinner Party** are New England’s premier gay and lesbian fundraisers; combined, they are among the largest LGBT events in the country. The proceeds raised by these two events constitute a critical source of funding for our unique and culturally competent programs.

**Notes:**

The lists reflect donors, volunteers and supporters from July 1, 2006 through June 30, 2007.

---

**Fenway Community Health’s**

history is defined by providing quality health care for all who need it—particularly for those who have been disenfranchised by their sexual orientation, gender, race, age or income.

It is marked by dedicated individuals whose unwavering trust and support have made our mission possible. Gifts from individuals—given to our annual fund or through special events—are vital to Fenway, helping us meet our most pressing needs and most exciting opportunities.
These lists reflect donors, volunteers and supporters from July 1, 2006 through June 30, 2007.

For an updated list of donors, volunteers and supporters, please visit our website at fenway.org.

By this recent, donor, volunteer and supporter list shows how the Board of Visitors’ mission is to heighten Fenway’s visibility and provide additional expertise and experience to support the organization and its work. Fenway’s BOV members are interested and influential members of the community, patrons, donors, and friends. An G. Hinds (pictureed at right), owner and CEO of the Catherine Hinds Institute of Esthetics, is the Chair of Fenway’s Board of Visitors.

Auditor’s Report

October 26, 2007
Wellesley, Massachusetts,
ended in conformity with accounting principles generally
Affiliate as of June 30, 2007 and 2006, and the changes
position of Fenway Community Health Center, Inc. and
above present fairly, in all material respects, the financial
In our opinion, the combining financial statements referred
to above present fairly, in all material respects, the financial
position of the Center’s management. Our responsibility
is to express an opinion on these combining financial
statements based on our audits.

To the Board of Directors of
Wellesley Community Health Center, Inc. and Affiliate:
We have audited the accompanying combining statements of
financial position of Fenway Community Health Center, Inc.
and Affiliate (Massachusetts corporations, not for profit)
(collectively, the Center) as of June 30, 2007 and 2006, and
the related combining statements of activities and changes
in net assets, cash flows and functional expenses for the years
then ended. These combining financial statements are the
responsibility of the Center’s management. Our responsibility
is to express an opinion on these combining financial
statements based on our audits.

We conducted our audits in accordance with auditing
standards generally accepted in the United States of America.
Those standards require that we plan and perform the
audits to obtain the reasonable assurances about whether
the combining financial statements are free of material
misstatement. An audit includes examining, on a test
basis, evidence supporting the amounts and disclosures
in the combining financial statements. An audit also includes
assessing the accounting principles used and significant
estimates made by management, as well as evaluating
the overall combining financial statement presentation.
We believe that our audits provide a reasonable basis for
our opinion.

In our opinion, the combining financial statements referred
to above present fairly, in all material respects, the financial
position of Fenway Community Health Center, Inc. and
Affiliate as of June 30, 2007 and 2006, and the changes
in their net assets and their cash flows for the years then
ended in conformity with accounting principles generally
accepted in the United States of America.

269 registered riders braved the wind on September 15, 2007 for the fifth annual Harbor to the Bay Ride from Boston to Provincetown. Together with the 201 crew members that supported them, they raised more than $378,000 to support HIV/AIDS services and programs. Thanks to the efforts of everyone who rode and crewed for Fenway Community Health, we received nearly $150,000 of that. This money helps ensure that every person with HIV/AIDS who comes through our doors receives the care that they need.

Visit www.harbortothebay.org for more information.
