   FenwayHealth

The mission of Fenway Health is to enhance the wellbeing of the lesbian, gay, bisexual and transgender (LGBT) community and all people in our neighborhoods and beyond, through access to the highest quality health care, education, research and advocacy.

Started in 1971 in a neighborhood basement as a weekly drop-in center, Fenway Health now provides comprehensive medical, behavioral health, radiology, pharmacy, dental and eye care services to more than 30,000 people who make over 180,000 patient visits a year.

We offer specialized women's and transgender health services, LGBT parenting and alternative insemination programs, x-rays and mammograms, a Violence Recovery Program for LGBT survivors of hate crimes and domestic violence, community health education and HIV prevention outreach. Our HIV Counseling, Testing and Referrals program is one of the largest of its kind in New England.

Fenway's staff is sensitive to each patient's needs and understands patients from different cultures and backgrounds. Our clinical staff includes providers fluent in Spanish and we can provide translation services in other languages.

Fenway Health was founded on the belief that health care is a right, not a privilege. Our financial assistance counselors can help enroll you in health insurance and other income-based assistance programs so that you can get the care you need.

# At Fenway Health...

- You will receive care from a medical team led by a primary care provider and a registered nurse who will take your health care as seriously as you do.
- We view the mind and body as one. You will find individual, group, couple, and family therapy; psychiatric expertise, and addiction treatment and support in a welcoming environment.
- We are recognized as a Patient-Centered Medical Home, which means your provider will guide a team of medical professionals and ensure that you receive comprehensive, coordinated and compassionate service—from primary care to counseling, from complementary therapies to our on-site pharmacy.
- We offer medical, dental, and eye care services to both adults and children, making it easier for you and your family to get all of your care and check-ups under one roof.
- Our Radiology Department offers mammograms, bone density scans and x-rays.
- Our Alternative Insemination offers medical alternatives for achieving conception to the entire LGBT community, couples and singles of any sexual orientation, as well as education, resources, support networks, and referrals. Our OB/GYN practice provides exceptional care during your pregnancy, while supporting you and your partner in a comfortable and safe environment. We strive to work in partnership with each patient to meet specific needs and preferences for your pregnancy.
- Our Sidney Borum, Jr. Health Center provides safe, non-judgmental medical and behavioral health care for young people ages 12-29 who may not feel comfortable going anywhere else.
- Throughout our history, we have always been committed to helping every person who comes through our doors, regardless of ability to pay.
- All of our resources are united in one goal: to treat you as a whole and unique person. Because, at Fenway, we recognize there is only one you.
