

Benefits of Membership

MVHC is the cooperative effort in Massachusetts working to increase awareness of viral hepatitis and support for programs addressing the needs of those living with or at risk for the disease. Add your voice to the statewide collaboration of organizations, providers and consumers to reduce the scope and consequences of the hepatitis epidemics. **Membership in MVHC is free.**

Educate and Advocate through Coalition-building

- Educate members and key stakeholders about viral hepatitis
- Advocate for expanded prevention, testing and health care for those living with or at risk for viral hepatitis.
- Collaborate to strengthen existing services, programs, resources and policies.
- Take action to influence viral hepatitis policy on the local, state, and federal levels

Connect to the Viral Hepatitis Community

- Develop and cultivate relationships with community leaders, policymakers, providers, people living with or at risk of viral hepatitis and other members
- Attend MVHC meetings to share information and take action on current issues in viral hepatitis policy
- Keep up with the latest news and changes in policy and legislation through periodic updates from MVHC
- Raise awareness of your organization at MVHC's meetings
- Give visibility to your organization's services and events through MVHC's communication network

Who Should Join?

Membership is open to everyone, including:

- People living with viral hepatitis
- Public health organizations
- Community-based organizations
- Clinics and health care agencies
- County hepatitis task forces
- Medical associations and foundations
- Social services providers
- Community leaders
